**Trail Facts:**

- From the parking area, there is about a 500 foot portion of the blue trail which brings you to a kiosk with a large map of the trails.
- The .6 mile blue trail goes around the pond. It is mostly flat.
- The .6 mile red trail enters the forested areas of the property, eventually meeting up with the blue trail. It has some moderate slopes.

**Permitted Activities:**

- Hiking
- Nature study
- Snowshoeing
- Cross-country skiing
- Mountain biking
- Horseback riding
- Birding
- Canoeing
- Hunting is allowed by permit.

No motorized vehicles are allowed on the property.

The 86-acre Urbanik Reserve was purchased from the Urbanik family in 2003. It contains a man-made pond that is bound by a causeway/dam at the northern end with an overflow discharge. The grassy dam provides a southern exposure that is perfect for warming up on winter days or while watching the clouds roll past in early spring. There are two trails on the preserve. The blue trail goes around the pond. A local Eagle Scout created the red trail that winds around the property through forested areas.
